**NCI**  
 NORTH CENTRAL  
 INDUSTRIES, INC.

Welcome!

2026 marks the 71st Anniversary of NCI and the 250th anniversary of the United States! Inside you'll find our selection of new and featured items that we are proud to present. Whether you are a long time NCI customer or checking us out for the first time, you can count on our innovative products and convenient service options to make buying the best fireworks available a breeze. Our experienced and knowledgeable staff are always eager to assist you in completing your order.

We're excited to introduce a fantastic lineup of over 40 new items, including new 500g and 360g compound finale cakes, nighttime smoke items, and the largest fireworks assortment on the market. And when it comes to celebrating America's 250th anniversary, we have you covered with over 30 patriotic-themed items, 9 of which are brand new this year. Combined with our passion for discovering new effects and products that deliver exceptional value, we are proud to continue showcasing the cream of the crop in consumer fireworks.

Chain Link Fireworks are here to stay, with over 20 unique items in the lineup. Last year we introduced the Splitter, which allows a single firing line to be split into multiple firing lines. For 2026, we're adding two new 44-shot Finale cakes that deliver the perfect ending to your one-of-a-kind show. These 500g, 360g, and 200g cakes allow end-users to link a variety of cakes together without the need for fusing, creating a unique show with virtually limitless possibilities.

In NCI's constant pursuit to improve and innovate, we are proud to introduce our fourth brand of fireworks: Dark Fun. Dark Fun is built on the idea that great fireworks should look as impressive before ignition as they do in the sky. The brand focuses on unique, eye-catching printing techniques that instantly stand out—giving retailers a product that demands attention and customers a brand they remember. Behind the bold visuals is a carefully engineered lineup that delivers the perfect balance of product size, shot count, and price. Every Dark Fun item is designed to maximize performance and value, hitting the sweet spot between excitement and affordability.

Our online ordering portal continues to receive positive reviews and remains available to all customers. It puts you in the driver's seat, giving you visibility into our live inventory and items currently in transit. We've gone to great lengths to ensure our warehouses are fully stocked heading into the summer selling season. However, we still recommend placing orders early to ensure the products you want are available. Our long-standing relationships with the best suppliers and shipping vendors help us maintain a full line of products ready for shipment.

Finally, our core principles—providing the highest quality products at competitive prices with unmatched customer service—are what set NCI apart from the competition. The warehouses are stocked, our trucks are ready, and we look forward to earning your business.

Sincerely,

Richard B. Shields
